We'll join Suzanne Whelan, MMWD Watershed Volunteer Coordinator, who will tell us about the program, what has been learned, and what you can do to assist in this conservation effort. 6.5 mile round trip, 1100 ft elevation gain. Bring your kids, grandkids, nieces, nephews, neighbors, or any other inquisitive youngsters in your life who would appreciate a deeper connection to nature. This is not a “drop off” program, we want you to stay and enjoy the experience too. We set out to search for natural wonders and share what we find with one another. The most important take home message is that animals and the habitats in which they live are fascinating and delicate things that should be treated gently. Bring a lunch, we usually stop to eat at about 11:30am, and remember to bring plenty of water.
