PROJECT DESCRIPTION

The Stafford Lake Bike Park is a project of Marin County Parks , with assistance from the Friends of Stafford Lake Bike Park. The 17-acre site, located within Stafford Lake Park, is intended to provide a public bicycle riding area for riders of all ages and skill levels from beginner through expert. The facility is designed to promote a community of learning and advancement, while providing safe, fun, and exciting bike riding experiences.

PHASE 2

A phased approach will include the development of the western portion of the bike park site. Construction on Phase 1 was completed in 2015 with Phase 2 planned to begin this summer. Phase 2 is focused on beginning riders and includes: a kid's flow trail, perimeter trail, and several 'loop' stations that will feature wooden structures of varying shapes and sizes created to challenge and build bike skills.
